Subject: dates for next Portland Harbor PMs/Senior Mgrs meeting

Hi again,

When we last spoke, you suggested Oct 23 or Oct 24 for our next Project Managers/Senior Managers meeting. The main topic would be the Section 5 issues from the August 29, 2014 letter and EPA's response dated September 15, 2014. EPA would like to schedule this discussion sooner to try and resolve this issues so related work can move forward on the project. Kristine Koch, Deb Yamamoto and I can be available October 9 (til 3pm), 15, or 16. We would like to invite the LWG to Seattle for these discussions, as we have made the trip south for many of these meetings, an alternative location might be Olympia.

Thank you – please let me know if these alternate dates can work for the LWG.

Lori
